PERTH INTERNATIONAL Jazz FESTIVAL

SHOW COPY

Fun positive energy spilling off the stage...this is what happens when hip-hop and jazz collide. Phat grooves, live horns, cultural collaboration and sophisticated lyrics. A dynamic live band supporting two powerful MC's.

This is a cross cultural collaboration between hip-hop and jazz - indigenous and non-indigenous - artists creating a powerful and positive message. The music is fun, funky and accessible to a wide section of the community. The community engagement opportunities that accompany this project are extensive including: lyric and song writing workshops, instrument and band workshops, media (photographic and video) workshops, skill sharing (project management and production).

Start your engines... from Zero to 100!

The Perth International Jazz Festival join with It's A Rap to present a powerhouse performance featuring an 8-piece live band supporting two West Australian hip hop giants - Zero Emcee and Razy Mac. Bold beats, brassy horns and lyrical mastery will put you in a good mood, make you think and entertain.

This cross genre and cultural collaboration works on stage and in the community with accompanying workshop engagements to bring together local participants to join in performance, production and documentation.

Fun, Energetic and Accessible. The hip hop artists spread a positive message and the music is fun and groovy.
